2022-06-16 NOTES AND COMMENTS

Ability to send codes to effectiff.

Question: how much time is needed to activate the codes.

New keys automatically to be sent to E! in the format listed below. Provide web-hook to retrieve the file. The name of the file is pin-code.json

Consider to use *.sql file for import

Create all data as importable MySQL file. Provide webhook to get access to the file.

```
{
 "uuid" : "ec703eba-88b2-465c-9f9a-26e1b03426ec",
 "code" :[
  { "pin": "12345678","isActive":1},
     { "pin": "12345695","isActive":0},
 ]
}
```
