PIN CODE EXCHANGE

CODE ACTIVATION

All subscribers of ScheduleInterpreter can activate set of PIN (authorization) codes for their customers OPI services using built-in tools.

DATA EXCHANGE

Every 30 minutes, effectiff bot will download all the codes for all subscribers using accessible location. The file name is `opi_code.zip` and file is protected with a password.

After obtaining the file, effectiff team will populate the codes. This includes activation and deactivation of the codes.

CONFIRMATION

ScheduleInterpreter needs confirmation the file has been processed. Procedure to be established.
