LANGUAGES IMPORT

Languages can be imported into ScheduleInterpreter using CSV file. Use Microsoft Excel or any other table editor to prepare data for import. Columns can be entered in any order. All bold fields are mandatory.

Names of the columns must be exact.

Column	Description	Type
Source language	The language from which the interpreting is done. For example, in the USA, the source language will be English in most cases.	string
Target language	The language into which the interpreting is done. For example, the language of the LEP consumer (patient, student, defendant etc.)	string

Use attached languages.xlsx template to prepare your data for import.
